

Resolving Error: “Another account from your organization is already signed in”

Step #	Task	Screenshot
1	Issue: Signing into a known good Office 365 account results in the error message, “Another account is already signed in on this device try again with a different account.”	

2

In Windows navigate as follows

“Settings -> Accounts -> Accounts -> Access work or school”

Remove all entries, *except* any AD domain entries.

Accounts > Access work or school

Get access to resources like email, apps, and the network. Your work or school account will be used to access these resources on this device when connected.

Sign in as an administrator to change device management settings.

Add a work or school account

naturalnetworks.local

Connected to NATURALNETWORKS AD domain
