Migrating Redirected Folders

Step #	Task	Screenshot
1	Created New destination share	Created folder called "RedirectedFolders" on new ser name.
		Advanced Sharing
		Share this folder Settings Share name: RédirectedFolders Add Remove Limit the number of simultaneous users to: 16777 < Comments: Permissions Caching OK Cancel Apply
2	Set permissions	On new share make sure "everyone" has full control s

		Permissions for RedirectedFolders Share Permissions Group or user names: Image: Control Add Remove Permissions for Everyone Add Permissions for Everyone Alow Deny Full Control Oh Change Read OK Cancel Apply Click OK twice to create share On the security tab make sure that "users
3	Set caching setting	Click on "cache Setting" and select " No Files or Prog are available offline"

		Offline Settings	
		You can choose which files and programs, if any, are available to users who are offline.	
		O Only the files and programs that users specify are available offline	
		Enable BranchCache	
		No files or programs from the shared folder are available offline	
		 All files and programs that users open from the shared folder are automatically available offline 	
		Ogtimize for performance	
		OK Cancel	
4	Move files		
		Open a command prompt as Administrate	or and run:
		"nohoony \\ald_convor_noma\aumont	radinated
		\\new server name\RedirectedFolders	/e /convall
			irereopjuii
		NOTE: This will "move" all files to new lo	ocation
5	Copy back folder		
	structure		
		"robocopy \\new_server_name\Redirect	tedFolders
		redirected sharename\ /e /xf * >null"	
		NOTE: This conv back to original location	n just the fo
		files. This important because the GPO nee	eds to see th

		the change.		
6	Set Permissions on old location	Change permiss	ions on old server share so t	hat all use
7	Update Redirected Folder Group Policy (GPO)	Open "Group Pe And for each fo 1. Chang i. Chang i. Chang i. Compute Certiguation i Compute Certiguation i Policies i Venter Certiguation i Policies i Scripti (Lopen Ubject) i Start Mana Decuments i Policies i Start Mana i Star	olicy Management" and right lder (Desktop, Documents . e "Root Path:" to reflect ne Group Policy Management Editor Two on goody the location of the Desitop Note: Two on goody the location Two on goody the lo	It click on) that is w location

is unchecked and that "Leave the folder in new removed" is selected.

	Desktop Properties ?
1	Target Settings Select the redirection settings for Desktop.
	Grant the user exclusive rights to Desktop. Move the contents of Desktop to the new location. Also apply redirection policy to Windows 2000, Windows 2000 Server, Windows XP, and Windows Server 2003 operating systems.
3	Policy Removal C Leave the folder in the new location when policy is removed. Redirect the folder back to the local userprofile location when policy is removed.
L	OK Cancel Apply
