

Restore Files and Folder in Microsoft TEAMS - SharePoint

Restore Files and Folder in Microsoft TEAMS - SharePoint

Step #	Task	Screenshot

If a file or folder was accidentally deleted, follow the below directions to restore it.

In the below example, the "Powershell" folder was deleted. The deletion can occur either

or via TEAMS synchronization via OneDrive on a User's local PC:

1	From within TEAMS, click on "open in SharePoint" for the TEAM folder where deletion occurred. This will open the corresponding SharePoint site in your default browser.
2	In left menu pane, click on Recycle Bin .

		<p>Home</p> <p>Conversations</p> <p>Documents</p> <p>Notebook</p> <p>Pages</p> <p>Site contents</p> <p>Recycle bin</p> <p>Edit</p>				
3	In the center pane, click on Date Deleted until the most recent items that have been deleted are at the top.	<h2>Recycle bin</h2>  <table border="1"> <thead> <tr> <th></th> <th>Name</th> </tr> </thead> <tbody> <tr> <td><input checked="" type="checkbox"/></td> <td>powershell</td> </tr> </tbody> </table>		Name	<input checked="" type="checkbox"/>	powershell
	Name					
<input checked="" type="checkbox"/>	powershell					
4	<p>For Folders</p> <p>Find the Folder  you would like to restore. Right click the folder and select Restore.</p> <p>For files just repeat the above process.</p> <p>Note: This will recreate the file structure that the original file was in if it was also deleted.</p>	 <p>Note: Depending on the size and how long it takes to restore. You can monitor the page.</p> <p> (once this is complete)</p>				
5						

Online:

Once restore is complete, the restore files will be immediately available in Teams app or online in the SharePoint page.

Local Synced

Restore might take some time depending on the amount of restored files, network bandwidth and how many users need the file re-synced.

OneDrive is up to date
