

KB: How to JOIN a Windows 11 System to Entra ID

#	Instructions	
1	<p>Before joining the computer to Entra, make sure you've named the device according to our naming conventions and restart the computer if needed after doing so.</p> <p>Go to "Settings", "Accounts", then find "Access work or school"</p>	
2	Click "Connect" next to "Add a work or school account"	

		<div data-bbox="1417 219 1596 280" data-label="Section-Header"> <h2>Account</h2> </div> <div data-bbox="1417 324 1596 403" data-label="Text"> <p>Get access to things on this</p> </div> <div data-bbox="1452 470 1596 508" data-label="Text"> <p>Add a work</p> </div>
3	Do not log in to any account. Instead, find “ Join this device to Microsoft Entra ID ” at the bottom of the page. Click the link.	<div data-bbox="1449 604 1596 712" data-label="Text"> <p>These a full con</p> </div> <div data-bbox="1449 784 1596 833" data-label="Text"> <p>Join thi</p> </div> <div data-bbox="1449 864 1596 913" data-label="Text"> <p>Join thi</p> </div>
4	Sign in using the administrator login that has permission to join computers to Entra	

		 <h1>Sign in</h1> <p>admin</p> <p>Can't find your account?</p>
5	<p>Verify the information then click Join</p> <p>You just joined the device to Entra ID!</p>	<p>Make sure this is your account</p> <h2>Make sure this is your account</h2> <p>If you continue, we'll use this account to sign in to your device.</p> <p>Is this the right account?</p> <p>Connecting to: Windows 10</p> <p>User name: admin</p> <p>User type: Administrator</p>

You might have a Windows Home system if any of these steps are unavailable. You can join it to Entra, but due to limited functionality, you should upgrade to Pro before joining it to Entra ID. The steps are similar but slightly different if you have a Windows 10 system to join.
