

How to Enable Temp Access Passwords for M365 Tenants

This is to be used when we need to be able to log in to an M365 account without having to get the user's password or be prompted to set up MFA.

#	Instructions	
1	Sign in to the Microsoft Entra Admin Center from the partner portal (GA is not needed)	
2	Browse to 'Identity>Users>All users'	
3	Select the target user account. Select 'Authentication Methods' and click 'Add authentication method'

C

.

5

Define a custom activation time or duration and select Add

Checking 'Delayed start time' allows you to set this for a time in the future. 'Duration' will set the amount of time the pass will be active. 'One-time use' is what it says!

Click 'Add'
